Step By Step:

Step 1: Feed transfer paper from bypass tray (single or multi sheet)

Step 2: Print on coated, rough side of the transfer paper.

Step 3: Print **Right Reading** not mirrored image.

Step 4: Print in **Plain Paper mode** or **T-shirt transfer setting** (for best results use high resolution of photo quality option)

Step 5: Trim away the unprinted paper around your image with scissors/exacto knife.

Step 6: Pre-press garment for 5 seconds.

Step 7: Remove transfer film from backing paper.

Step 8: Position imaged transfer film on garment with printed side face up.

Step 9: Place silicon paper on top of transfer.

Step 10: Press at 375°F (190°C) using **MAXIMUM** pressure for 20-25 seconds.

Step 11: Peel transfer hot/warm. (Allow 5 seconds for transfer to cool before peeling.) When peeling, use a smooth even motion.
